If you would prefer to be contacted by us for your credit card's security code and expiry date, please select this box

Now please complete Part 2 of your application.

**PROGRAM DETAILS**

The program fees are per student and include reference manuals, electronic materials, access to the live webinars, assessments, software and ongoing support. Students should budget to spend approximately US\$800 per year in text books not included in the program fees.

You can "pause and restart" by joining a subsequent intake (a rejoining fee may apply). We will allow up to 5 years from your original start date to complete the Graduate Diploma part of the program.

If you withdraw from the program at any other time you will receive a statement of attainment for the units you have completed.

Successful completion of all 12 core units and capstone thesis will earn you the Master of Engineering (Industrial Automation). Students who successfully complete all 8 core units from year one as outlined in the program brochure can opt to receive the Graduate Diploma of Engineering (Industrial Automation).

**CANCELLATION**

A fee equivalent to 1 monthly installment will be retained as a cancellation fee for written cancellations received less than 14 days prior to the start date of the program.

EIT retains the right to postpone or cancel a program without liability.

**ADMISSION**

Admission to the program is subject to review of your existing educational qualifications and/or career history. Once admission has been granted you will be provided official confirmation. An information pack for joining the program will be supplied on the program start date.

**PLEASE NOTE**

EIT has no affiliation with suppliers or manufacturers and therefore presents a completely unbiased factual view of the industry.

Lecturers may change without notice.

Webinar schedules are subject to change.
