# Hennie Prinsloo Golf Day

## Kloof Country Club | 6 May 2022

May weather in Durban? Beautiful! And the weather on 6 May for the Durban branch golf day did not disappoint. It was clear, sunny, warm (dare we say hot?) and just beautiful – there is no other word for it. The disposition of the golfers in the 25 four balls was just as sunny with an added mix of enthusiasm and joy which was a recipe for a wonderful day out of the office.

With 25 four balls this was a record turn-out and as always, a vote of thanks needs to go to Steve Sanders for his tireless work in making this day a success. Another vote of thanks goes to all our sponsors as without them (and even with Steve's hard work) the day just wouldn't work.

### A special thanks goes to our hole sponsors:

Elonics 1st Tee, Yokogawa Reg Table, AVK Valves 5th Tee, Feedback Electronics (13th Tee), Loadtech Putting Green, Cabstrut 18th Tee, IFM 10th Tee

**Proud Durban members**

As always, ICA/Yokogawa kindly sponsored the registration station and as always, there were a variety of beverages to choose from: coffee for those who wanted to wake up and then focus on the game, Old Brown Sherry for those who needed something stronger and fruit juice for those who preferred something in between. Sonto and her crew from ICA manned the table with good cheer and bonhomie and Sonto's sales skills came to the fore as she charmed everybody into taking a raffle ticket (or two) and this raised a whopping R3030 for the SAIMC coffers.

*Thank you, ICA!*

There has been a recent addition to the management team at ICA. Pictured here is proud Granddad Mark Calvert with Kai.

As always, the golfers varied in skill and experience but the common denominator for both hackers and experienced golfers alike was fun, relaxation and a day out of the office (along with lots of good natured rivalry and 'chirping').

**Proud Durban members**

After a hot slog on the golf course, a shower and a quick change of clothes were in order before everybody adjourned for the prize giving. As always, Howard Lister's choice of prizes were superb and together with those donated we were able to give prizes to the top 20 places. Branch General Manager Mark Calvert did the honours and if a rowdy and boisterous prize giving is any indication of a successful day – this one came up trumps.

*...and the winners were...*

The winning four ball was Loadtech. From left: Mark Calvert (SAIMC), Bryce Mildenhall, Glen Webster, Anton Schulz. Not in the photo but part of the four ball was Mark Webster.

In second place was IFM 1. From left: Vis Pillay, Rishen Naidoo, Steve Sanders (SAIMC), Kobus Sauerman, Chris Livis.

Schneider Electric was in third place. From left: Kamalin Chetty, Quinville Arends, Damon Danielz. Not in the photo but part of the four ball was James Reynolds.

**Proud Durban members**

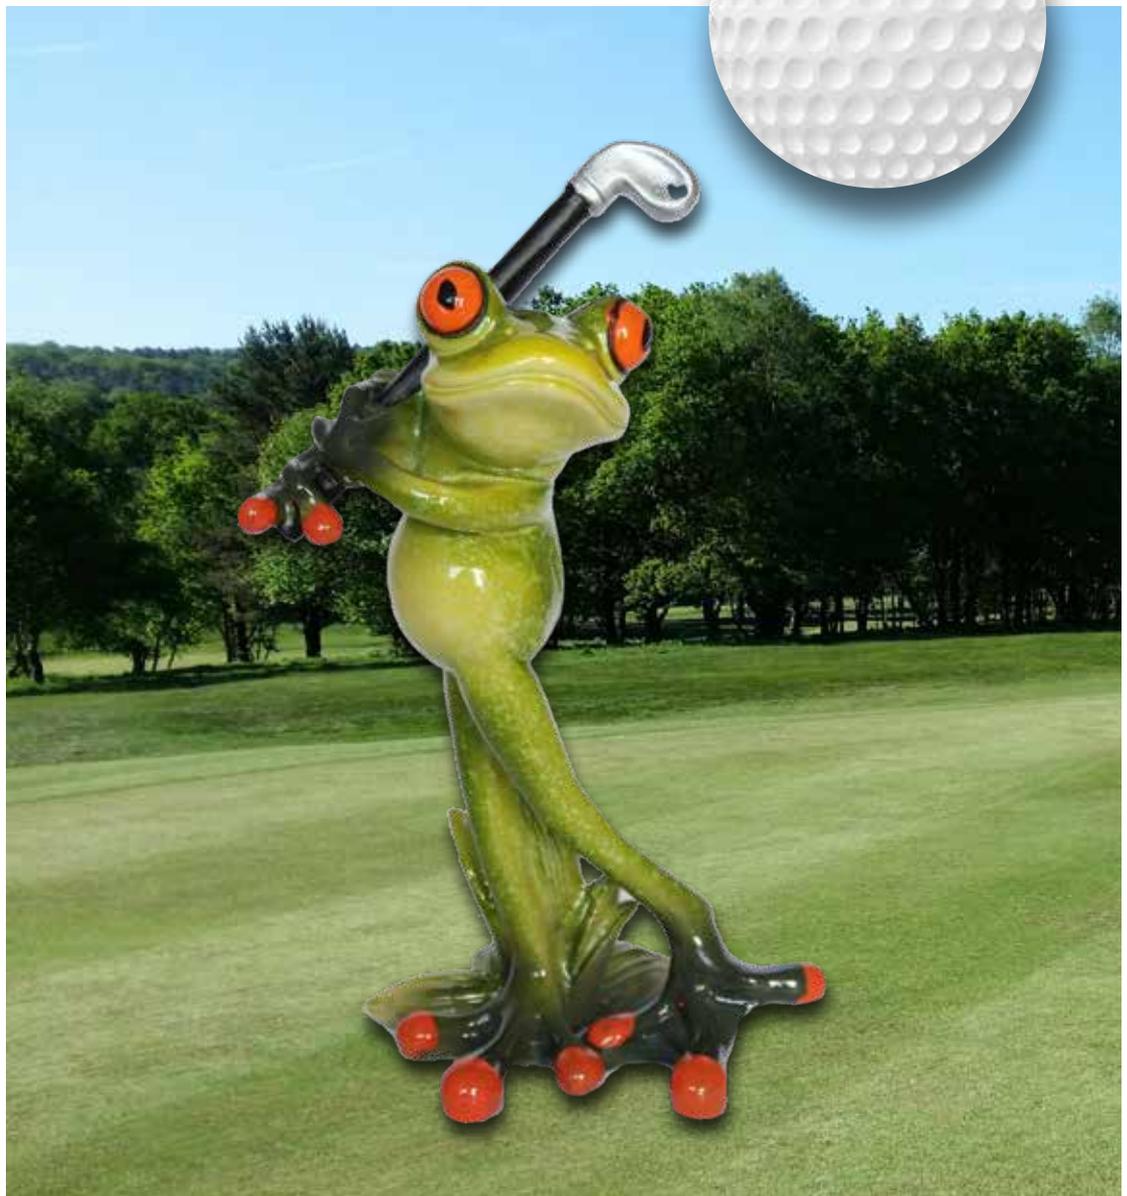

All that remains is to thank everybody again (including the Durban management team) and to say:

# Save the date

for next year – it's already been booked for

## 12 May 2023
